

Timor-Leste Energy Storage Power Station Grid Connection Subsidy

Overview

The landmark project includes drafting and negotiating a power purchase agreement (PPA) and an implementation agreement with the Ministry of Finance, marking a significant step in Timor-Leste's transition to renewable energy and modernising its electricity infrastructure. The state utility company Electricidade de Timor-Leste (EDTL), which became corporatized only in 2020 currently spends over USD 100 million/year as a fuel budget and electricity tariff set below the cost-recovery level is being subsidized using the central government budget allocation. Design. Will Timor-Leste's first solar power project integrate with a battery energy storage system?

In a landmark moment for Timor-Leste's energy future, a Power Purchase Agreement (PPA) has been officially signed for the country's first-ever solar power project integrated with a Battery Energy Storage. Global law firm DLA Piper, as part of an advisory team led by the Asian Development Bank (ADB) has advised Electricidade de Timor-Leste (EDTL) on a power purchase agreement with a consortium comprised of Électricité de France and Itochu for the development of Timor-Leste's first utility-scale solar. Equitable distribution of benefits. In Timor-Leste the Secretary of State for Energy Policy is responsible for the design and implementation of the government's rural energy projects and are environmentally benign. Another key part is promoting programs that replace fuel-wood with modern. g Partner will provide Timor Leste with insights into the potential of solar resource in the country.
