How Japan is Driving BESS Investment

Gore Street Capital and ITOCHU Corporation have been selected by the Tokyo Metropolitan Government (TMG) to manage Japan's first fund dedicated to grid-scale energy storage.

Tokyo utilities put home battery storage in Japan

Home battery storage aggregation projects have launched with participation

of Tokyo Electric Power Co, and Tokyo Gas, two major utility companies in the Japanese capital.

Tokyo Energy Storage Phase II: Redefining Urban Renewable Energy

The Tokyo Energy Storage Phase II project isn't just another battery installation; it's sort of the linchpin for Japan's 2030 carbon neutrality goals. By 2026, this 820MWh facility will store enough renewable ...

Tokyo Energy Storage Project Start Time: What You Need to Know

Tokyo's new large-scale energy storage project is set to begin construction in Q1 2025, marking Japan's most ambitious battery storage initiative to date. This renewable energy solution aims to address ...

Japan Energy Storage Policies

and Market Overview

As Japan pushes toward decarbonization, energy storage is no longer optional infrastructure--it's a strategic hinge between climate ambition and energy security.
