

Tonga container energy storage device manufacturer

Overview

The two battery storage facilities use Storage GEM®, the innovative modular energy storage container technology developed by the Akuo Group. A total of 8 such containers have thus been deployed on Tongatapu, the Tonga archipelago's main island: three Storage GEM® for Tonga 1 and five for Tonga 2. We are currently working alongside the Tonga Renewable Energy Project to construct Tonga's first ever Battery Energy Storage Systems to store Renewable Energy Generation from our Solar & Wind Farms, to be used at the most suitable time. Its innovative architecture strategically splits systems into easily transportable units, reducing shipping constraints and installation complexity.
