

Torch Photovoltaic Energy Storage Power Station

Overview

Torch Clean Energy is developing the project and Fluence is providing the battery storage technology — the Gridstack Pro 5000. The project delivery date is expected to be early 2027. 15, 2025 (GLOBE NEWSWIRE) -- Fluence Energy, Inc. ("Fluence") (NASDAQ: FLNC), a global market leader delivering intelligent energy storage systems, services, and asset optimization software, and Torch Clean Energy, a privately-held independent power producer. Fluence Energy, Inc. Torch Clean Energy announced this week that its Winchester solar project in Arizona will deploy 160 MW / 640 MWh of battery capacity across two mirrored systems. Torch's "Winchester" project will have 160 MW of solar and is expected to be online in 2027 to support regional grid balancing and forecast load growth, the company said. Fluence Energy and Torch Clean Energy Unveil Winchester Solar-Plus

Fluence Energy, Inc. and Torch Clean Energy have announced the Winchester project, a solar-plus-storage facility in Cochise County, Arizona.

Winchester solar + storage project on the books in Arizona

Torch Clean Energy will build the Winchester solar + storage project in Cochise County, Arizona. The twin 80-MW solar projects will be supported by 160 MW/640 MWh of energy storage from Fluence ...

Fluence and Torch Clean Energy Partner to Deliver 160 MW / 640 MWh

"Torch is excited to partner with Fluence to manufacture the energy storage system for our Winchester project," said Travis Haggard, President of Torch Clean Energy. "The Gridstack Pro 5000 will ...

Fluence and Torch Clean Energy Launch 160 MW Arizona Solar

Fluence Energy (NASDAQ: FLNC) and Torch Clean Energy have announced a major solar-plus-storage project in Cochise County, Arizona, integrating Fluence's advanced Gridstack Pro 5000(TM) technology

Torch Clean Energy and Fluence Partner on 640 MWh Battery

Torch Clean Energy is advancing its Winchester project in Cochise County, Arizona, by selecting Fluence Energy to deliver a 160 MW / 640 MWh battery storage system.

640 MWh Arizona solar plus storage project selects Fluence for US-made

Torch Clean Energy says it has some 1,400 MW of generation capacity under development with 20+ utility-scale renewable energy facilities across seven states. Fluence reports it has more than 22 GWh ...

Torch Clean Energy taps Fluence for 640 MWh battery

...

"Torch is excited to partner with Fluence to manufacture the energy storage system for our Winchester project," said Torch President Travis Haggard.

Fluence and Torch Clean Energy Unveil 160 MW / 640 MWh ...

Two prominent players in the clean energy sector, Fluence Energy and Torch Clean Energy, are joining forces to deliver a massive solar-plus-storage project in Cochise County, Arizona.

160 MW / 640 MWh Arizona Energy Storage System Announced

Torch Clean Energy is developing the project and Fluence is providing the battery storage technology -- the Gridstack Pro 5000. The project delivery date is expected to be early 2027. The solar

Fluence, Torch Team on 640-MWh Arizona Battery

Fluence Energy (NASDAQ: FLNC) will supply a 160-MW/640-MWh battery energy storage system in Arizona through a partnership with independent power producer Torch Clean Energy, the ...
