

# Tsingda Aup Solar Power Generation Scam

## Overview

---

A company that services several different brands of solar panels is recommended. The current solar companies (without naming names) that advertise only use one brand and if that solar panel company goes out of business, the home owner is stuck!. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy. Repeated harassment calls about installing solar panels, over 300 calls in the last year, I get about 4 a day as I try to run a business I have to distinguish between these nonstop calls and my clients/customers. I've asked to be removed from the call list 28 times already as they even call about. From deceptive sales pitches to illegitimate paperwork, we'll cover five key areas every homeowner should scrutinize: 5) The potential harm of fraudulent warranty documents. At the same time, federal and state regulators have received an increase in consumer complaints about a small number of unscrupulous solar companies. Please refresh the page and try again.
