

# What is the power range of the energy storage cabinet

- ✓ 100KW/174KWh
- ✓ Parallel up-to 3sets
- ✓ IP Grade 54
- ✓ EMS AND BMS

## Overview

---

The amount of electricity stored typically ranges from 5 to 20 kWh for residential systems, and larger commercial systems can hold significantly more, up to several megawatt-hours. Featuring EticaAG's LiquidShield immersion technology and HazGuard toxic gas neutralization system, it prevents battery fires, maintains consistent. Energy storage cabinets are devices that can store electricity for later use, with varying capacities depending on the technology and design used. It is designed for rapid deployment, standardized installation, and reliable long-term operation. They assure perfect energy management to continue power supply without interruption. Constructed with long-lasting materials and sophisticated technologies inside. Founded in 2009, SineSunEnergy has been focusing on lithium battery energy storage product development and application, providing leading lithium battery energy storage system integrated solutions.
