

# What kind of contract is formal for photovoltaic panels

## Overview

---

A solar contract is a signed agreement between a person and a solar power installation company that clearly outlines every part of the solar panel installation process, including the steps before, during, and after the actual installation, and who is responsible for each. A Request for Proposal (RFP) is a formal bid document to ask vendors to provide proposals for desired projects, as required by many public agencies (federal, state, local). A PPA allows users to pay for the power generated. Whether you want to own your system, pay over time, or simply pay for the power it produces, there's a contract structure to fit your financial goals and lifestyle. It's important to get everything in writing, understand all terms and solar incentives, and ask questions of the installer for.
