

What to do if the photovoltaic panels on the roof leak

Overview

Signs of a roof leak under solar panels include water stains, damp odors, water pooling, and decreased energy production. To fix a roof leak, identify the source, repair the roof, inspect and upgrade the mounting system, and reinstall and seal the solar panels properly. After all, your solar installation was meant to enhance your home's efficiency, not compromise its integrity. But don't worry—you're not alone, and this issue is more common than you might think. Understanding how to identify and fix these leaks is crucial for maintaining your home's value and ensuring the longevity. Solar panels offer clean, renewable energy, but improper installation or aging components can lead to roof leaks. Improper installation. If you've discovered a leak beneath your solar panels, you'll want to address it carefully to avoid costly damage. With the right approach, you can stop the leak and protect.
