

# Wind power generation equipment industry type

## Overview

---

By equipment type, the market is segmented into rotor/blade, tower, generator, and other equipment types. The Global Wind Power Equipment Market is Segmented by Location (Onshore and Offshore), Equipment Type (Rotor/Blade, Tower, Generator, and Other Equipment Types), and Geography (North America, Europe, Asia-Pacific, South America, and Middle-East and Africa). Image © Mordor Intelligence. The modern wind power industry began in 1979 with the serial production of wind turbines by Danish manufacturers. The industry is undergoing a period of rapid globalization and. Wind Energy Equipment Market size stood at USD 102 Billion in 2024 and is forecast to achieve USD 173 Billion by 2033, registering a 6. The Wind Energy Equipment Market is a vital segment within the renewable energy landscape, comprising various technologies and machinery. Wind Power Equipment Market by Location (Offshore, Onshore), Equipment (Blades, Control Systems, Gearboxes, Generators, Towers, Turbines, and Others), and Regional Analysis for 2025 - 2032 ID: PMRREP35323 | 190 Pages | 15 May 2025 | Format: PDF, Excel, PPT\* | Energy & Utilities The global wind. As per MRFR analysis, the Wind Power Equipment Market Size was estimated at 122. 94 (USD Billion) in 2024 to 200.

## Wind power generation equipment industry type

---

### Wind power industry

The wind power industry is involved with the design, manufacture, construction, and maintenance of wind turbines. The modern wind power industry began in 1979 with the serial production of wind ...

### Wind Power Equipment Market

The onshore wind power industry has dominated the wind power equipment market and is expected to continue its dominance over the forecast period. Over the past few decades, onshore ...

### Wind Energy Equipment Market Size, Industry Share & Forecast

These innovations play a crucial role in lowering the cost of wind energy, making it a more attractive option for utilities and investors alike. The applications of wind energy span across various industries, ...

## Wind Power Equipment Market Size & Forecast Report, 2032

Wind power technologies, including turbines, blades, and generators, are integral to harnessing wind energy for electricity generation. This market is expanding due to advancements in ...

## Wind Energy Equipment Market Size, Trends & Forecast 2025-2035

The utilities segment is a crucial component of the wind energy equipment market, as utility companies are the primary operators of large-scale wind farms. These companies are increasingly investing in ...

## Wind Power Equipment Market Size, Industry Share , Forecast [2025 ...

Based on the equipment, the market is segmented into the rotor blade, towers, generators, gearbox, and others. The generator technology is anticipated to dominate the market due to increasing power ...

## Wind Power Equipment Market

## Analysis by Size, Share & Growth 2031

The Wind Power Equipment Market is growing rapidly, driven by increasing end-user demand due to factors such as evolving consumer preferences, technological advancements, and greater ...

## Wind Power Equipment Market Size, Growth, Trends, Report 2035

Technological advancements are a significant driver of the Wind Power Equipment Market Industry. Innovations in turbine design and efficiency have led to higher energy output and lower operational ...

## Wind Power Generation Industry Profile from First Research

Current, comprehensive coverage of the Wind Power Generation Industry. Includes: industry forecasts, trends, financial information & detailed analysis. Updated 12/1/2025.

## Wind power industry

Wind turbine manufacturers design, test, manufacture, and assist with the operation and maintenance of wind turbines. Important choices facing them include turbine design (generator type, gearbox vs. gear-less, materials) and how much control to maintain over component supplies (internal vs. external). They must be concerned with maintaining their extensive fleets of operating turbines while at the same time developing newer and ever-larger models. The largest wind turbine manufacturers are based in Denm...

## Wind Power Equipment Market Size, Share, Industry Trends and ...

Key players in the wind power equipment industry include Siemens Gamesa, Vestas, GE Renewable Energy, Nordex, and Goldwind. These companies dominate the market by providing innovative ...
