

# Xiangxi zinc-magnesium-aluminum photovoltaic bracket manufacturer

## Overview

---

, Ltd located in Xiamen city. Specialize in research, design, development, production, and service of Solar PV Mounting systems. As the photovoltaic (PV) industry continues to evolve, China has emerged as a global leader, thanks in part to the widespread use of zinc-aluminum-magnesium (Zn-Al-Mg) materials. These innovative materials have revolutionized key PV components, enabling significant cost reductions and durability. Zinc, aluminum and magnesium coatings offer better corrosion resistance and less coating adhesion than conventional products, saving material and time. It has better protection for the cutting edge of the steel plate, the welded part and the part of the coating damaged due to serious deformation. Zn-Al-Mg Coated steel solar mounting system This Zn-Al-Mg coated steel solar mounting system can be applied to large commercial solar photovoltaic project. It is an industry-leading enterprise focusing on providing photovoltaic brackets, anti-seismic brackets and fastener products. The company occupies an area of 24 acres and has a full set of production lines for anti-seismic support and hanger accessories, photovoltaic solar brackets, and more than 30 assembly line of pressing equipment, with a total. Culture is made by Zinc-magnesium coils and zinc-aluminum-magnesium tubes. Flexible positioning withstands different wind & snow loads. High-strength zinc-aluminum-magnesium C-shaped steel brackets.
