

# Xiangxin Technology won the bid for energy storage photovoltaic

## Overview

---

In the second quarter of 2022, Xiangxin Technology won the bid for three energy storage photovoltaic inverter projects, with a total order amount of 1. The targeted intention projects received this time also come from this business scope. Xiangxin Technology Co. (hereinafter referred to as the "Company") recently received a letter of winning from a leading customer of photovoltaic inverters and energy storage (the specific name of the customer can not be disclosed according to the confidentiality agreement with the customer). Xiangxin Technology's energy storage business is thriving due to 1. On July 13th, Xiangxin Technology said that the company had won the bid to be the supplier of distributed small three-phase 10K inverter. As of the end of last year, Xiangxin Technology's overall delivery this year reached 8 billion yuan, including 3 billion yuan for vehicle structural parts, 3 billion yuan for power battery structural parts, 1.

## Xiangxin Technology won the bid for energy storage photovoltaic

---

### **Xiangxin Technology won the bid of 450 million yuan energy storage**

On July 13th, Xiangxin Technology said that the company had won the bid to be the supplier of distributed small three-phase 10K inverter products of the customer. The project life cycle ...

---

### **Xiangxin Technology becomes the supplier of photovoltaic inverter**

Xiangxin Technology becomes the supplier of photovoltaic inverter products in digital energy distributed projects

---

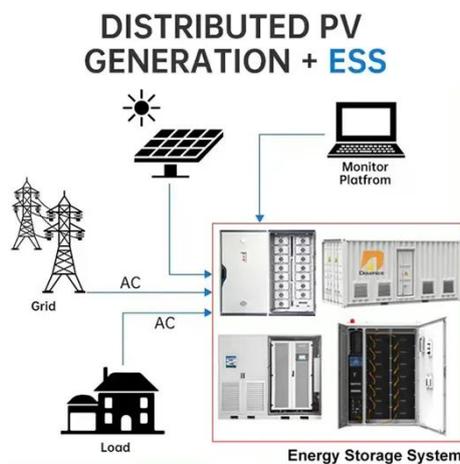

### **Xiangxin Technology won a large order of about 1 billion yuan in the**

The company will seize this market opportunity and vigorously develop related businesses in the new energy vehicles, power batteries, photovoltaic inverters and energy storage industries.

## Xiangxin Technology has photovoltaic inverters

Since the beginning of this year, Xiangxin Technology has more than once disclosed the announcement of energy storage photovoltaic project winning the bid. On July 13th, Xiangxin Technology said that ...

## Xiangxin Technology received 14.9 billion intentional orders in the

The company will firmly seize this market opportunity and vigorously develop new energy vehicles, power batteries, photovoltaic inverters and related businesses in the energy storage industry.

## Xiangxin Technology will deliver 8 billion in total in 2021 and receive

Xiangxin Technology will deliver 8 billion in total in 2021 and receive more than 50 billion in new orders in 2024

## Xiangxin Technology Wins Big Order of Mysterious Photovoltaic Head

On August 2, Xiangxin Technologies announced that it had recently received a letter of acceptance from a head customer of photovoltaic inverters and energy storage (according to the confidentiality ...

---

## How is Xiangxin Technology's energy storage business?

The integration of next-generation battery technologies, particularly lithium-ion and solid-state solutions, positions Xiangxin to respond adeptly to the burgeoning market needs for effective ...

---

## Being swept by the new energy tide, Xiangxin Technology is at the

In the second quarter of 2022, Xiangxin Technology won the bid for three energy storage photovoltaic inverter projects, with a total order amount of 1.15 billion yuan.

---

## Xiangxin Technology won 15 billion orders for new energy vehicles to

Downstream customers cover new energy vehicles, power batteries, energy storage, photovoltaic inverters, communications and other industries. The above-mentioned letter of intent for the project ...
