

# Yokogawa Solar Photovoltaic Panel Manufacturer

## Overview

---

PXiSE (acquired by Yokogawa in 2022) has been a leader in advanced grid-control and distributed energy resource management technologies, supporting utilities and operators with high-performance control solutions for microgrids, renewable plants, and hybrid assets. Efficiently managing a diverse portfolio of solar power assets alongside other renewable energy technologies, ensuring seamless operations, optimal performance, and. Acireale, Decem-BaxEnergy, a Yokogawa Company, announces that PXiSE Energy Solutions, another company of the Yokogawa Group, is now officially operating as BaxEnergy Americas, aligning the former PXiSE brand with BaxEnergy's global brand identity and solution suite within Yokogawa's. Combined, Yokogawa and PXiSE expertise help our global customers accelerate and enable the clean energy transition. The PXiSE Renewable Power Plant Controller helps large energy generation and storage portfolio owners, developers, and EPCs optimize the efficiency and production of any combination. In 2024, Yokogawa strengthened its commitment to innovation in the energy transition by acquiring BaxEnergy, a global full-service partner of energy companies and industrial operators providing end-to-end solutions for asset performance management, grid control, and cybersecurity. The company's. JinkoSolar is a listed solar panel manufacturer from Shanghai, China. The company owns nine production facilities globally and has an annual capacity of 31 GW for solar wafers, 19 GW for solar cells, and 36 GW for solar modules. Please select the technology type that you are interested in. For local distributors/wholesalers, check here.
